MARTHA WAMBUI THUKU

Computer Security and Forensics Graduate

Kenya | +254 113 246 755 | marthathuku92@gmail.com

PROFESSIONAL PROFILE

Computer Security and Forensics graduate with a completed Google Cybersecurity Professional Certificate and practical ICT attachment experience at Murang'a County Assembly. Combines a foundation in network security, vulnerability assessment and digital forensics with experience in technical troubleshooting, information management and documentation. Developed an academic facial recognition system for attendance monitoring and examination verification, applying requirements analysis, artificial intelligence and data management. Seeking the Information Security specialization of the Presidential Digital Talent Programme (PDTP/DigiTalent) to contribute to secure ICT systems and effective public service delivery.

TECHNICAL COMPETENCIES

Information security: Network security, vulnerability assessment, cyber threat analysis, digital forensics and security auditing.

Security tools: Splunk, Wireshark, Nmap, Metasploit, OWASP ZAP and Kali Linux.

Data and artificial intelligence: Python, data analysis, data science fundamentals, artificial intelligence, facial recognition and data management.

Software development: React, Node.js, Git/GitHub and requirements analysis.

ICT operations: Technical troubleshooting, technical documentation, information management and Microsoft Office.

RELEVANT EXPERIENCE

ICT Industrial Attachment

Murang'a County Assembly, Kenya | May - August 2024

- Supported day-to-day ICT operations in a public-sector environment, assisting staff with routine technical activities and operational requirements.
- Assisted with technical troubleshooting and ICT support tasks, applying knowledge of computer systems to assigned issues.
- Supported information management activities and prepared technical documentation, maintaining accuracy and attention to detail.
- Applied ICT and information security knowledge to assigned responsibilities while collaborating with staff as operational needs changed.

EDUCATION

Bachelor of Science in Computer Security and Forensics

Jaramogi Oginga Odinga University of Science and Technology (JOOUST)

Graduated December 2025

ACADEMIC PROJECT

Facial Recognition Attendance and Examination Verification System

Jaramogi Oginga Odinga University of Science and Technology

Developed an academic system to support student attendance monitoring and examination verification through facial recognition, artificial intelligence and data management.

- Analysed system requirements and translated user needs into a practical software solution for attendance and examination verification.
- Applied facial recognition and artificial intelligence concepts to the student verification process.
- Incorporated data management into the solution, considering the accuracy and usability of student information.
- Considered information security throughout development alongside functionality and user requirements.

PROFESSIONAL CERTIFICATIONS

Google Cybersecurity Professional Certificate
Google | Completed

Introduction to Cybersecurity
ICT Authority Kenya | Completed

Introduction to Data Science
ICT Authority Kenya | Completed

ONGOING PROFESSIONAL DEVELOPMENT

Google IT Support Professional Certificate | In progress

Google UX Design Professional Certificate | In progress

ADDITIONAL TRAINING AND SELECTION

Empowering Youth and Women amid Economic Instability

United Nations Institute for Training and Research (UNITAR) | 2026

Competitively selected for an international programme focused on youth and women empowerment, public-private partnerships and sustainable development in Sub-Saharan Africa.

PROFESSIONAL STRENGTHS

Analytical problem solving: Requirements analysis and technical troubleshooting across academic development and ICT support activities.

Accuracy and documentation: Careful handling of information and attention to detail in technical documentation and routine ICT work.

Collaboration and adaptability: Experience working with public-sector staff and responding to changing operational requirements.

LANGUAGES AND AVAILABILITY

Languages: English - Fluent | Swahili - Fluent
Availability: Available for a full-time internship
